

Windows 365

New Era of Corporate Windows for a hybrid world

Enter a new phase of the digital world and get rid of the technical barriers when working from Home Office. Windows 365 represents a whole new approach to work for companies. You can **work from anywhere** on any device. Windows 365 combines the **flexibility and security of the cloud** with the classic desktop. The number of business users can be changed according to your needs, even on a monthly basis.

Main Benefits

- Use a Cloud Windows tailored to your needs
- Keep all your apps and data in one place
- Log into Windows 365 from your personal computer, phone or tablet
- Work with familiar Microsoft 365 applications.

Don't deal with old laptops

You can **customize Windows 365 to suit your needs**. You can choose from a variety of performance options, memory and storage size. With a cloud computer, you **no longer have to deal** with old laptop and PC hardware that causes lag and is unable to run the latest business applications. This removes the need to constantly buy new devices.
